2 Approval minutes and action points

The minutes of 21 May 2019 are approved.

3 Approval of the B-centre checklist as amended in the Utrecht meeting

The requested approval of version 7.2 of the B-centre checklist ([CE-2013-0095 version 7.2](#)) is purely so that CLARINO can use this in the upcoming round. A cleaner version of the document, with improved text, more technical details and references included (for CTS, FAIR etc), is planned to be ready for approval by the SCCTC during the F2F Centre meeting in Leipzig.

Since the last meeting there are no significant changes made to this document (besides the Shibboleth content) and no further request for changes is made by the SCCTC.

Document [CE-2013-0095 version 7.2](#) has been officially approved by the SCCTC to be used by CLARINO in the upcoming round.

4 Status update per country/member

Austria
