

Title	Centre Assessment Report fifteenth round
Version	1
Author(s)	Lene Offersgaard and CAC
Date	2020-12-20
Status	Version approved by SCCTC and CAC.
Distribution	SCCTC, CAC
ID	CE-2020- 1784

1 Summary

In the following the CLARIN Assessment Committee (CAC) will report on the 15th B centre evaluation round which was carried out May 2020 – November 2020 (1 centre). This evaluation round uses the *CLARIN B Centre Checklist*¹ version 7.3.1.

The assessment committee will for the centre that apply for assessment recommend if the centre can be granted/re-granted the label as a CLARIN B-Centre, give a general comment, and perhaps list remarks that has to be improved before granting/re-granting the label. Other optional suggestions for improvements might also be included.

All centres have the option to clarify the points mentioned below by short statements to the Chair of the CLARIN Assessment Committee and to the chair of the SCCTC in case that the remarks or corresponding evaluation results are not agreed on.

For this round one centre applied for the B-centre label:

- SADiLaR - South African Centre for Digital Language Resources

Result of assessment:

The CAC recommends granting:

- SADiLaR - South African Centre for Digital Language Resources the B-Centre label when they fulfil the criterion listed in section 2 below.

The evaluation of B-Centres will be valid for three years from the date the assessment is approved by the SCCTC or the date the CTS is achieved. However, reassessment might be needed before the three years has passed if changes in the requirements in the meanwhile are agreed on within the SCCTC.

2 SADiLaR

CAC recommends certifying the following centre as a CLARIN B-Centre when it fulfils the following criterion:

- SADiLaR supports the CLARIN IdP for academic login access to resources (section 5, item 5 in checklist)

Other remarks:

- None.

Comments:

- SADiLaR has already achieved the CTS, so the B-label should be granted with no delay when the mentioned criterion is fulfilled.
- South Africa is currently an observer in CLARIN ERIC, but this should not be an obstacle for getting the B-label.
