2. Approval of minutes last meeting & action points

MM welcomes Cristina Grisot (CLARIN-CH), who will represent Switzerland in the SCCTC until a permanent SCCTC representative is identified.

The [minutes](#) of the previous meeting are approved.

The following APs are no longer relevant and/or have been completed and are thus removed:

- 6, 8, 10, 14, 17, 18 and 19.

Comments on other APs:

- **AP 8:** MD will give a brief presentation about OpenAIRE in the next SCCTC meeting; the AP is removed.
- **AP 10:** TMB proposes a workshop, with the Centre Meeting offering a good opportunity; the AP is removed.
- **AP 11:** The deadline has been moved to June, when the topic is likely to be revisited at the Centre Meeting.
- **AP19:** The Korp mailing list was set up. If interested, you can [subscribe here](#)

3. Centre assessments

- MW gives a brief update on the status of assessments in round 20:
 - The application by [Språkbanken](#) is still missing information.
- DVU reports that four centres have lost their B-centre status, and are now C-centres:
 - [Center for Estonian Language Resources](#)
 - [Hamburger Zentrum für Sprachkorpora](#)
 - [Institut für Deutsche Sprache](#)
 - [Institut für Maschinelle Sprachverarbeitung](#)

- The representatives of the above centres have been contacted and invited for the upcoming assessment round.

4. Next Workplan

- MM suggests to centre the work plan around focus areas such as:
 - FCS
 - CTS
 - Actively assisting member states without B-Centres
 - facilitating cross-border backups

→ The SCCTC agrees on the abovementioned focus areas.

5. Cross-border back-up

- An agreement between CZ and SI, shared via email prior to the meeting, could serve as a blueprint for similar arrangements.
- MD reports that Austria has also tried setting up a similar agreement; he highlights that the repositories in both CZ and SI are based on Dspace, making backing-up easier.
 - DVU suggests bringing up this topic up the NCF during their upcoming face-to-face meeting on 17 April in Lisbon.
 - **AP 20:** MM, DVU and MD to discuss further in a smaller scale meeting.

6. WebAnno/INCEpTION

- Based on an email CLARIN received, DVU poses the question whether there are services accessible through AAI (Shibboleth) for those needing to access WebAnno/INCEpTION instances?
 - Italy will set up an INCEpTION application as part of a H2IOSC a PNRR project, and asks for support in installing; DVU points out to make use of CLARIN mobility grants for this.
 - Finland runs Webanno and is unsure about moving to INCEpTION, since usage is low and has fallen in recent years.
 - Estonia (CELR) also has an INCEpTION instance, though not accessible via AAI.
 - Sweden is currently migrating from WebAnno to INCEpTION; they have several instances.
 - Greece runs an INCEpTION instance with AAI but only for Greek users; DVU to contact CLARIN-EL to ask whether their instance could be opened up to CLARIN (**AP 21**).

→ This topic will be revisited in the upcoming SCCTC meeting.

7. Federated Content Search

- L-JO gives a quick update of a recently distributed survey:
 - In total, there were even respondents, two of which are new to FCS
 - 2x Korp, BlackLab v 3, KonText20202, bonito, ARCHE, MariaDB
 - Some centres are interested in consultation.
 - MWy plans to get in touch support the University of Birmingham [[link to Birmingham endpoint](#)] and will be in touch with L-JO for further steps
 - SG: request to merge his [pull request](#) to the FCS Korp Endpoint
