

Title	CLARIN Annual Member and Observer Reports 2023	
Version	1	
Author(s)	KB, NCF	
Date	6 August 2024	
Status	For distribution	
Distribution	NCF, GA, BoD	
ID	CE-2024-2441	

CLARIN Member and Observer Reports 2023

Introduction

This document provides an overview of the organisation and activities for each CLARIN ERIC member and observer. It lists the coordinator, consortium, core user communities, website and key achievements, **for the period November 2022 to November 2023**. During this period, Spain joined as full member (September 2023), and Switzerland as observer (January 2023). This brings the total number of members to 23, and the number of observers to 3.

On the following pages, the reports are listed by country alphabetically.

1. Austria
2. Belgium
3. Bulgaria
4. Croatia
5. Cyprus
6. Czech Republic
7. Denmark
8. Estonia
9. Finland
10. Germany
11. Greece
12. Hungary
13. Iceland
14. Italy
15. Latvia
16. Lithuania
17. The Netherlands
18. Norway
19. Poland
20. Portugal
21. Slovenia
22. South Africa (Observer)
23. Spain
24. Sweden
25. Switzerland (Observer)
26. United Kingdom (Observer)

<p>Key achievements</p> <p>Cyprus has actively contributed to the CLARIN infrastructure by promoting digital cultural heritage initiatives and engaging with key user communities. Notable achievements include participation in various projects, organisation of impactful events, and production of significant publications. The efforts have enhanced the visibility and integration of CLARIN within the cultural heritage sector, fostering collaboration and innovation in digital humanities.</p> <p>Events</p> <ol style="list-style-type: none"> a. <i>European Researchers' Night: Theme Mission Connect</i> (2023, September 29) - Nicosia State Fair https://erachair-dch.eu/event/in-person-symmetochi-sti-vradia-toy-ereyniti-2023/ <ul style="list-style-type: none"> - Mission: The European Researchers' Night is an annual event aimed at educating the public about the world of science and research while strengthening the public image of researchers. The event is organized under the EU-funded Project CONNECT (Grant Agreement No. 101060913) and has been hosted by the Research and Innovation Foundation in Cyprus since 2006, in collaboration with key actors in the local research and innovation ecosystem, including public and private universities, research centers, non-governmental organizations, and businesses. 			

That year's theme, Climate-Neutral and Smart Cities, aimed to nurture a culture of research and innovation, raising awareness of the research activities in Cyprus. Scientists, academics, researchers, and entrepreneurs presented their work to the public, engaging visitors of all ages with interactive experiments, games, discussions, and awards.

- **Impact:** The UNESCO and ERA Chairs on Digital Cultural Heritage based at the Cyprus University of Technology (CUT) participated actively. They showcased the holistic digital documentation of cultural heritage, including 3D digitization projects like the traditional village of Fikardou. Visitors experienced virtual tours of Fikardou, digital explorations of local gastronomy, and the use of the Antikythera Mechanism application .
- b. *Final Event Meta-Pandemic GLAMers in Cooperation with the EU Project MNEMOSYNE (H2020 ERA CHAIR) (2023, February 13) - Limassol, Cyprus* <https://erachair-dch.eu/event/conference-final-event-meta-pandemic-glamers/>
- **Mission:** The GLAMers project, coordinated by CUT through the UNESCO Chair in Digital Cultural Heritage, aimed to support galleries, libraries, archives, and museums (GLAMs) in their digital transformation, particularly in response to the COVID-19 crisis. The project involved youth in enhancing GLAM activities and evaluated the impact on social changes in the relationship between GLAMs and youth.
 - **Impact:** The event brought together cultural and creative institutions, youth communities, and digital transformation experts. It featured speeches by notable figures such as the Deputy Minister of Culture of Cyprus and the Rector of CUT. The event provided a platform for sharing project outcomes and exploring innovative approaches to strengthen GLAM-youth relationships in a post-pandemic world.
- c. *The 16th International Conference for Cultural Tourism in Europe (2023, October 18-21) - Pafos, Cyprus,* <https://erachair-dch.eu/event/in-person-the-16th-international-conference-for-cultural-tourism-in-europe/>
- **Mission:** The UNESCO Chair on Digital Cultural Heritage at CUT, through the Mnemosyne project, participated in this conference focused on smart tourism, cultural heritage, and sustainability. Organized by the European Cultural Tourism Network (ECTN), the conference aimed to address challenges and opportunities in smart, sustainable, and responsible tourism development.
 - **Impact:** Mnemosyne research fellows presented on topics such as the holistic digital documentation of Saint Neophytos Monastery and the use of smart technologies in cultural heritage tourism. The conference facilitated the exchange of best practices and provided practical recommendations for promoting cultural heritage through innovative digital methods.
- d. *Project MNEMOSYNE Final Event (H2020 ERA CHAIR) (2023, December 7-8) - Limassol, Cyprus* <https://erachair-dch.eu/event/mnemosyne-project-announces-its-final-event/>
- **Mission:** The final event of the Horizon ERA Chair MNEMOSYNE project highlighted the project's achievements in holistic digital documentation of cultural heritage over five years. The event included presentations, round table discussions, and demonstrations of practical applications of the project's innovations.
 - **Impact:** The event was attended by a diverse group of experts and stakeholders, including government officials, legal experts, and academic professionals.

Presentations covered various aspects of the Mnemosyne project's work, showcasing its impact on digital cultural heritage practices and policies

e. *CLARIN Infrastructure Promotion*

- Throughout these events, the CLARIN infrastructure was presented and promoted to inform the audience about its capabilities and benefits. This effort was part of the overarching strategy to integrate CLARIN into broader cultural heritage and research initiatives, thereby enhancing its visibility and adoption within the research community.
- This report highlights the successful organization and impact of these key events, demonstrating the active role of the Cyprus University of Technology and its associated projects in promoting digital cultural heritage and innovative research practices.

Projects

a. *EU H2020 ERA Chair on Digital Cultural Heritage MNEMOSYNE (2019 - 2023)* -

<https://erachair-dch.eu/>

- Mnemosyne is a project for a single-stage Coordination and Support Action submitted under WIDESPREAD-03-2017-ERA Chairs. Context Cultural Heritage is a strategic resource for Europe with high cultural, social, environmental and economic value. The era of Digital Cultural Heritage (DCH) is now well underway and the European research resource for DCH has grown significantly in recent years. Cultural Heritage has a strategic resource for growth, job creation and a role to play for more cohesive and sustainable regions in the EU.

b. *ERASMUS+ The GLAMers (2021-2023)* - <https://glamers.eu/>

- The main goal of the study is to produce a framework that would enable cultural heritage professionals and institutions and other custodians of cultural heritage, providers of 3D digitisation services for cultural heritage and other researchers from the area of 3D digitisation technologies for cultural heritage to define and produce high quality in the context of specific 3D digitisation projects for tangible cultural heritage.

c. *ANCHISE (2023 - 2026)* - <https://www.anchise.eu/>

- ANCHISE – ‘Applying New solutions for Cultural Heritage protection by Innovative, Scientific, social and economic Engagement’ aims at offering to European societies efficient methods, knowledge, and toolkit to enhance the protection of cultural heritage against looting and illicit trafficking.

d. *EUreka3D (2023 - 2025)* - <https://eureka3d.eu/>

- EUreka3D will prove innovative approaches to digital transformation of CH sector, based on the provision of services and tools, compliant with Europeana CSP, and powered by advanced computing and storage resources. EOSC registered services for authentication and authentication, guidelines and recommendations for high-quality 3D digitization, representation of holistic documentation in advanced metadata information, all this will be assessed in a pilot where 4 CHIs participate with their contents.

e. *ERASMUS+ ARTEST (2023-2025)* - <https://artest-project.eu/>

- The project aims at reinforcing education in the field of the Humanities by adopting digital methods of research and education and harmonizing the development of both soft and digital skills during the study process.

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

- c. Jauhiainen, T., Zampieri, M., Baldwin, T., & Lindén, K. (2024). *Automatic language identification in texts*. Springer Nature.

Training materials

- a. *Corpus Linguistics and Statistical Methods* (5 ECTS) - Organized in the autumn and in the spring term, there are alternative study groups in English and in Finnish.
- b. *Introduction to Speech Analysis* (5 ECTS) - The course can be taken in English or in Finnish.
- c. *Data Clinic* (5 ECTS) - Online course, materials available in English. The general meetings will be organized online. The participants also work in small study groups with their peers. The groups may decide to meet either online or on the site of their preference.

Projects

- a. Supporting the Digital Sustainability of the Hungarian Language: The current project focuses on research and development within four subprojects, in which the Research Institute for Linguistics, recognized as an Excellent Research Place by the Hungarian Academy of Sciences (MTA), plays a leading and unique role. These are the following:
 - *Hungarian National Corpus 3.0*
 - *Spelling Advisory Portal 2.0*
 - *Digitization of the Archival Card Collection of the Comprehensive Dictionary of the Hungarian Language*
 - *Analyzed Corpus and Knowledge Base of the Ob-Ugric Languages*
- b. Digital Support of the Hungarian Language in the Service of Hungarian Scholarship: In general, it aids scientific communication through text mining methods and, within this scope, provides significant support for Hungarian scholarship by processing and making Hungarian-language scientific publications accessible. Within the project, we primarily plan to extract modern, born-digital, peer-reviewed content that can be effectively used as training material. The language technology tools developed within the project will thus enable the improvement and enrichment of the REAL repository's content and enhance the repository services provided to users (researchers).

Resources (datasets, tools, services)

- a. *Hungarian ParlaMint II* - The newly built Hungarian corpus of ParlaMint II focuses on the minutes of the Hungarian National Assembly between May 2014 and June 2022 and can be considered a major improvement from the Hungarian corpus of ParlaMint I.
- b. *PULI GPT 3SX* - The first Hungarian-only GPT-3 base model.
- c. *PULI GPTrío* - A trilingual (Hungarian, English, Chinese) GPT-3 model.
- d. *ParancsPULI* - Hungarian-language instruction follower fine-tuned PULI-GPTrío.

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

- c. *Digital tools for humanists* [Summer School, Pisa] (2023, June 13-22) -Supported by CLARIN. Focus of the 2023 edition: tools and applications dealing mostly with Digital Public History
- d. *CLARIN Café: A new CLARIN Resource Family for Lexical Semantic Change Research* (2023, July 5) - Co-organised CLARIN-IT-CLARIN-UK <https://www.clarin.eu/event/2023/clarin-cafe-new-clarin-resource-family-lexical-semantic-change-research>
- e. *Infrastrutture e Risorse per la Ricerca Linguistica in Italia* (2023, November 11) - organized in the context of the national PNRR IR H2IOSC [Humanities and cultural Heritage Italian Open Science Cloud] project to discuss the role of RIs and elicit community needs and desiderata; <https://www.clarin-it.it/it/content/evento-h2iosc-pisa>

Projects

- a. *MUSAE: Music and Arts Empowerment* (Call: AFAM – NextGenerationEU)
The focus is to create a circuit of exchanges, educational and research activities, events and artistic productions along the two main strands of traditional music (a common element in all countries and a common ground for encounters and artistic creation), and of some Italian excellences that are still highly attractive and internationally recognizable (opera, accordion), enhanced through the modern tools of digitization.
- b. *OSTrails: Open Science Plan-Track-Assess Pathways* (Call: HORIZON-INFRA-2023-EOSC-01 - Project number: 101130187).
OSTrails aims to advance processes and instruments for Planning, Tracking, and Assessing scientific knowledge production beyond state-of-the art, working with various national and thematic contexts, improving existing infrastructure, and connecting key components.
- c. *ECHOES: European Cloud for Heritage OpEn Science* (Call: HORIZON-CL2-2023-HERITAGE-ECCCH-01 – Project number: 101157364).
ECHOES aims to create the European Collaborative Cloud for Cultural Heritage (ECCCH) as a shared platform for heritage professionals and researchers to access data, innovative scientific and training resources and advanced digital tools co-developed by the heritage community according to their specific needs.
- d. *Testo: Translating, Encoding, Sharing The Origins*. From the Littera Florentina to an open access Italian translation of Justinian's Digest. (Call PRIN PNRR 2022 – Project number:

P20224NJLK). *The project intends to create a complete and updated Italian translation of the text of the Digest.*

- e. *Roads: Roads to Oral Archives Development and Sustainability* (Call PRIN 2022 – Project number: 2022TSXM2P). *ROADS deals with oral archives produced by academic researchers in different fields (e.g. oral history and linguistics). It envisages a framework (under the CLARIN-IT umbrella) capable of ensuring long-term preservation, security, standardization, compliance with ethical principles and legal issues, and sustainability, according to the FAIR principles.*

Resources (datasets, tools, services)

- a. Augustine of Hippo. n.d. *Confessions* [Corpus]. The Latin Library. <http://www.thelatinlibrary.com/august.html> [The original text was lemmatized and PoS tagged with the UDPipe tool (using the PROIEL trained model).]
- b. TrAVaSI_VoDIM [Corpus]. (2018). In C. Marazzini & L. Maconi (Eds.), *Vocabolario Dinamico Dell’Italiano Moderno*. [The TrAVaSI_VoDIM Corpus is a sample of the corpus built for the Vocabolario Dinamico Dell’Italiano Moderno (VoDIM), gathering Italian texts from 1861 to the present day, after the Unification of Italy. TrAVaSI_VoDIM is balanced and representative of different prose domains (art, gastronomy, law, newspapers, literature, popular fiction, science), for a total of about 21.000 tokens. TrAVaSI_VoDIM is morpho-syntactically annotated and lemmatized.]
- c. Zanolà, M. T., Dankova, K., Grimaldi, C., & Serpente, A. (2023). *Pan-Latin Lexicon of Collars and Sleeves in Fashion and Costume*. ILC-CNR for CLARIN-IT repository hosted at Institute for Computational Linguistics "A. Zampolli", National Research Council, Pisa. [Pan-Latin Lexicon of Collars and Sleeves in Fashion and Costume \(cnr.it\)](http://panlatinlexicon.cnr.it) [Lexical Conceptual Resource. The Pan-Latin Lexicon of Collars and Sleeves in Fashion and Costume, developed within the Pan-Latin Terminology Network (REALITER), aims at collecting the main terms designating collars and sleeves in fashion and costume. The Lexicon intends to give a multilingual (Italian, Catalan, Spanish, French, Portuguese, English) terminological description in this field.]
- d. Imparato, S. C., et al. (2023). *ItaASD: Italian speech corpus Autism Spectrum Disorder*. ILC-CNR for CLARIN-IT repository hosted at Institute for Computational Linguistics "A. Zampolli", National Research Council, Pisa. <http://hdl.handle.net/20.500.11752/OPEN-990> [This is a corpus of semi-spontaneous speech produced by 34 children between 6 and 13 years of age, residents in the Campania region of Italy. Half of the participating children were diagnosed with high-functioning Autism Spectrum Disorder, and the other half were neurotypical children matched for age, gender, and geographical origin. Processed data (i.e., tables of acoustic/rhythmic/lexical/syntactic values, with the name of the speakers masked through an alphanumeric acronym to ensure anonymity) are available from the contact person upon reasonable request.]
- e. *EpiLeXo* [ToolService]. EpiLexO is a user-friendly web application for the creation and editing of an integrated system of language resources for ancient fragmentary languages centered on the lexicon, in compliance with current digital humanities and Linked Open Data principles. EpiLexo allows for the editing of lexica with all relevant cross-references: for their linking to their testimonies, as well as to bibliographic information and other (external) resources and common vocabularies.

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

- a. Conservatory of Cosenza - PNRR AFAM Project
- b. RUT Foundation - Intercultural dialogue and social innovation - Social dimension of scientific research
- c. Ferrara University - development of training modules
- d. Tuscany Superintedence - archives' preservation.

Key achievements

Events

- a. *Algorithms* [TV Debate] (2023, December 7) - part of the TV program "Civil Society" (in Portuguese), at the national public TV broadcasting RTP2 channel, about AI, societal impacts and sovereignty <https://www.rtp.pt/play/p11183/e733134/sociedade-civil>
- b. *Artificial intelligence* [TV Debate] (2023, December 22) - at the MyGiG.pt channel <https://youtu.be/pMFQ30RqhhE>

Projects

- a. *Covid-recovery program* funded project on generative AI for the Portuguese language

Resources (datasets, tools, services)

- a. Collection of reference LLM encoders and decoders for Portuguese, open source, license and distribution, for both PT-PT and PT-BR variants, 100-900-1.5k Million parameters

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

- a. New collaboration protocol with Lisbon Academy of Sciences

Publications

<p>Key achievements</p> <p>Events</p> <ol style="list-style-type: none"> a. <i>2 DH IGNITE Events</i> - Regional events that aim to grow the community and build capacity for the humanities and social sciences across South African Universities <ul style="list-style-type: none"> - <i>DH IGNITE: Western Cape</i> (2023, March 8-10) - https://sadilar.org/en/dh-ignite-western-cape/ - <i>DH IGNITE: Eastern Region</i> (2023, August 23-25) - https://sadilar.org/en/dh-ignite-digital-upskilling-in-the-spotlight-at-third-regional-event/ b. <i>10 Digital Humanities Colloquiums</i> - Online DH colloquiums as part of SADiLaR's ESCALATOR programme. These colloquiums cover a wide variety of topics related to 			

Digital Humanities, focusing on techniques or methodologies used, as well as applications or application areas.

- c. *Supported Conferences* - SADIaR provided support and played a central role in organising national and regional conferences:
- *The South African Linguistics and Applied Linguistics Society (SALALS)* (2023) - <https://sadilar.org/en/salals-conference/>
 - *The African Association for Lexicography (AFRILEX)* (2023) - <https://sadilar.org/en/sadilar-shines-spotlight-on-research-during-spring-conference-season/>
 - *The African Language Association of Southern Africa (ALASA)* (2023) - <https://alasa.org.za/conferences/>
 - *The Digital Humanities Association of Southern Africa (DHASA)* (2023) - https://www.bizcommunity.com/article/dhasa-2023-highlights-importance-of-digital-humanities-for-inclusion-123006a?fbclid=IwZXh0bgNhZW0CMTAAR3lxqh5BY_2gl-OljRfjVesk8XMCaNKY-1itEpg1NE2avQrWPRcLAVqST4_aem_AURrbVRfwPXK2eAaK6YGgm_ILskvswkXqKn6iTYbt6mQvHq0tTxbLPRqLeJ4NBkMJT12AIdi7bqSgCYZbJ_AYwxp
 - *The International Language Conference* (2023) - hosted at Sol Plaatje University <https://www.spu.ac.za/index.php/spu-hosts-inaugural-international-language-conference/>
 - *The Resources for African Indigenous Languages (RAIL)* (2023) - <https://sadilar.org/en/sadilar-celebrates-successful-4th-rail-workshop-in-croatia/>

Projects

- a. *SWiP project launch* - SADIaR launched its SWiP project in collaboration with Wikipedia and the Pan-South African Language Board. The launch event focused on the Ndebele language, however, the project promotes all of South Africa's indigenous languages online: <https://sadilar.org/en/swip-project-to-champion-sas-indigenous-languages-online/>
- b. *SADIaR* - concluded the USAf Language Resources Audit that investigated the resources available and still required for institutions to implement the policy framework for public higher education institutions: <https://sadilar.org/index.php/en/language-resources-audit>

Resources (datasets, tools, services)

- a. The SADIaR repository received technical upgrades during 2023 and prepared the work for future improvements. New resources in the repository in 2023 include:
- *80 datasets* with word embedding models for 10 South African languages https://repo.sadilar.org/discover?filtertype_1=project&filter_relational_operator_1=equals&filter_1=NCHLT+Text+IV&filtertype_2=title&filter_relational_operator_2=contains&filter_2=&submit_apply_filter=&query=embeddings
 - *Afrikaans lexical blends dataset* <https://repo.sadilar.org/handle/20.500.12185/668>

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

The USAf audit (mentioned above) was in collaboration with all South African public universities, and many of our other projects and events (see above) are hosted in collaboration with another institution.

Collaborations (notable collaborations with other academic institutions, and/or GLAM sector or industry)

- a. CLARIN-UK has led a notable collaboration on behalf of CLARIN with libraries. The collaboration has resulted in two workshops, two conference presentations and a presentation to the DARIAH national coordinators' meeting, and the setting up of a The collaboration provides important links between major projects developing online interfaces, data labs and large language models, and is making an important contribution to sharing expertise and knowledge, and promoting interoperability. The activities have involved national, university and other research libraries from sixteen countries.
- b. CLARIN-UK has also initiated and led a notable collaboration with the European Holocaust Research Infrastructure (EHRI), with a presentation of CLARIN at an EHRI-UK consortium meeting, a joint research workshop, and successful proposals for further workshops in 2024, with research grant proposals also planned.

- c. The Sheffield centre participates in the ATRIUM-EU project as CLARIN representatives with partners in archaeology and digital humanities.
- d. The Infrastructure in the Digital Arts and Humanities (iDAH) programme provides funding for the CLARIN-UK repository, and also acts as a forum for peer trusted repositories the Archaeology Data Service, Natural History Museum and British Library to collaborate on common practices, training and user services.

Training materials
